MOUNTING OF PRINTS

All Ken Duncan Limited Edition Prints (40" or larger) are are created using the finest archival processes to ensure the integrity of your artwork for years to come. Your framed artworks will be delivered right to your door, anywhere in the world (fully insured along the way) ready for you to hang and enjoy. **MDF Mounting**

Our Small Limited Edition Prints prints are mounted onto carefully prepared MDF mounting board, using a pressure sensitive film which is water based for archival stability. This film also acts as a buffer between the mounting board and the print to ensure the archival protection of your print.

MAT BOARDS

We use the highest quality Alpha Rag mats from Bainbridge, which are 100% archival, in three standard colours - Black, White and Cream. We purposely use neutral mat colours so as not to take attention away from the photographs.

GLAZING

All framed prints are finished with **Museum Quality Conservation Acrylic** which is the highest standard for art works and has many advantages over glass. It ships well as it has high impact resistance for safety, it eliminates 93% of harmful UV rays to provide maximum protection for your prints, and it is temperature neutral and therefore protects your print against convection currents and condensation.

Colour Match

Every effort has been made on this Gallery site to accurately represent the vibrant colours of Ken Duncan's images.

However, due to differences in computer screens and certain other variations, the images here should only to be taken as a guide.

Obviously, the colour and sharpness of a finished Ken Duncan Limited Edition Print are far superior to what can be presented on a small screen at low definition.
