The Sanctuary

Sometimes we find ourselves so busy that we become disconnected from God. He never meant us to walk alone, God wants to walk with us.

As a landscape photographer, I am constantly reminded how wonderful God is, as evidenced by the beauty in His creation. So, if you're feeling stressed out and disconnected, or you just need a reminder of God's awesome love for us, then hopefully this multi-media presentation will encourage you. It's certainly a lot easier for us to bring these stunning locations to you, rather than you trying to travel to them!

If there are issues in your life you would like prayer for, we would be honoured to pray for you. God doesn't promise we will not face trials and tribulations in this life, but He does promise that we never need to face them alone. So please, send a prayer request , and we will uphold you in prayer.
